FROM PROJECT CONTEXT TO REUSABLE ENGINEERING KNOWLEDGE
Configure and publish: definitions, taxonomies, reference data and test catalogs
1 PREPARE
Project profile
Stories and tasks
Classify / review stories
when the workflow needs it
NFRs
Story + profile
Retrieve artifacts
Test cases
Story + catalog
Retrieve artifacts
Project risks
Profile only
Retrieve artifacts
3 INSPECT AND REUSE
Read recommended artifacts
Inspect source cases
Compare feature contributions
Replay and export a run
2 CHOOSE ONE: distinct inputs and method policies
Human decisions stay visible: accept / reject and adapt NFRs or tests while preserving their originals
